

7-3 Science Friday Folder

Mr. Andreacci
Friday, 5/2/08

Dear Parents/Guardians,

NJASK 7 state testing took place this week. Make-up testing will be administered next week for students who were absent or who arrived late to school. Because of the testing, I did not meet with Science classes this week. Therefore, there are no papers to be returned.

Students should choose a disease caused by a virus or bacterium for their research projects. We will be starting the projects on Monday, as we continue Chapter 2 in the Science textbook.

This letter does not have to be signed or returned to school. Have a good weekend.

Sincerely,

Mr. Andreacci
