7-3 Science Friday Folder
Mr. Andreacci
Friday, 11/16/07

Dear Parents/Guardians,

Because of the Veterans' Day Assembly and the Battle of the Homerooms Activity that took place on November 2, Science classes did not meet. Because of this, today's folder has more assignments than usual.

On Thursday, students took the Chapter 1 written test. The graded tests were returned to the students today. In addition to returning this letter, students' homework is to correct each incorrectly answered test question and ask you to review and sign their graded tests. This is due on Monday. Grades have been updated on the class web site. A few scores, including any make-up work, have to be added to the first marking period grade before it is finalized. As previously announced, all science assignments for the first marking period were due on Thursday. I gave your son or daughter a printed progress report today. Misplaced work will no longer be accepted for first marking period credit since the marking period ended on Thursday.

Please review the corrected work in this folder with your child. A list of the past week's graded assignments appears at the bottom of this letter. If this folder does not contain one or more of the assignments listed, your child has not handed it in to me on time.

As a homework assignment, your child has been asked to have you sign this letter and return it to school on Monday. The graded work should remain at home. If you have any questions regarding your child's science class, please send e-mail or call me at the school. Have a good weekend.

Sincerely,

Mr. Andreacci, NAndreacci@obps.org

---	---

There should be 7 graded science assignments in this folder:

- Test- Chapter 1 Written Test (100 points)
- Class Assignment- *Skillbuilders: Current Science worksheet* (10 points)
- Class Assignment- Notebook Grade (20 points)
- Homework- Textbook page 44, Section Review #1-#3 (10 points)
- Class Assignment- Video Study Guide for *Bill Nye: Cells* (10 points)
- Homework- Worksheet 1-2, *Looking Inside Cells* (10 points)
- Quiz- Organelles Quiz from October 31 (20 points)

In addition to this assignment, students should have completed pages 5-13 in their orange ISG workbooks. This was an additional homework assignment. A progress report should also be in this folder.
